

MICHAEL MUELLER

FRONT-END DEVELOPER

{ABOUT ME}

Creative developer with a passion for well designed interfaces and engineered code with experience in both Front-end Development and areas of Back-end Development. An eagerness to learn and endless curiosity drive me to better myself and expand my skillset at every chance.

{EXPERIENCE}

FRONT-END DEVELOPER

City of Oshawa, Oshawa, Ont // May '19 - Sept '19

- ☐ Lead a team of developers to deliver a pathfinding application for users looking to discover more about park locations.
- ☐ Took a hands on roll in designing, programming and testing throughout app development phases.
- ☐ Worked with client and users to test viability of project in the field, allowing us to more clearly understand the needs of end-users.

CONTEMPORARY WEB DESIGN

Durham College // Sept '18 - April '20

- ☐ Developed deeper understanding of UI/ UX design principles.
- ☐ Created various projects using modern web technologies and patterns.

COMPUTER PROGRAMING ANALYSIS

Durham College // Sept '17 - April '18

- ☐ Gained a strong foundational understanding of programming standards, principles and development methodologies.

{GOALS}

My goals for the future include expanding my knowledge of the technologies that I have already use every day, and to dive deeper into other regions of developement, in particular the machine learning, AI and IOT sectors.
